

Beijing University of Chinese Medicine

A Guide to Application for Master's Degree

Program in Clinical TCM

(For International Students, 2015)

Beijing University of Chinese Medicine (BUCM) was founded in 1956. As one of the foremost Chinese medicine universities in China, BUCM is the only traditional Chinese medicine (TCM) university getting into China National "211 Project".

In order to promote TCM culture and to train TCM international talents, BUCM for the first time, implements the Master's Degree Program in Clinical TCM for international students. The program uses English as teaching language. Scholarship is available.

1. Educational Goal

The program is designed for the training of qualified Chinese medicine clinical doctors. As graduates of China's most prestigious Chinese medicine university, the students are competent at medical ethics and Chinese medicine culture. In clinic they are able to independently employ TCM theories and clinical skills in dealing with common diseases when they accomplish their study.

2. Curriculum and Teaching Language

(1) The curriculum is set with reference to the requirements for the education and assessment of Chinese medical professionals in USA, UK, and Australia etc.

(2) The teaching methods include classroom study, e-learning, lecture, and case study etc.

(3) General training is combined with specialized training. Clinical training is operated by following the teacher in clinic. It benefits students from understanding the master's academic theory, the thought of diagnosing and treating, and the clinical experiences, thus to enhance their clinical working ability.

(4) Applicants themselves select teaching language, English or Chinese, in class. Usually

native speakers and applicants with English as official language take English, otherwise Chinese.

3. Application Requirements

(1) Applicants need to possess valid international passports, no criminal record, obey China's laws as well as BUCM's regulations, in good health condition;

(2) Applicants should receive a bachelor's degree, no more than 45 years old. Applicants who hold degrees issued by overseas education services should submit the original and one copy of the degree confirmation authorized by Chinese Service Center for Scholarly Exchange (CSCSE). Authorization website: <http://renzheng.cscse.edu.cn/>. Consulting telephone: +8610-82361045

(3) Language requirements: Applicants from non-English speaking countries who take courses with English as the teaching language, are required the English proficiency of IELTS 6.0 and above, or TOEFL (computer-based) 80 and above, or to provide certificates attesting equivalent English proficiency. Applicants of native speakers and those with English as the official language are exempted.

4. When to Apply

(1) March 15--- May 15, 2015

(2) August 15---October 15, 2015

5. Application Procedure

(1) Online application: Log on the website: <http://www.bucm.edu.cn/yanjiusheng>; Enroll in "Master's Degree English Program in Clinical TCM for International Students Online System"; Submit application documents.

(2) Submitting Application Documents:

A. E-documents: Applicants should send the scan copies (pdf format only) of all documents to this mailbox: bucmjw@163.com , within two days after they enroll successfully;

B. Paper documents:

The Admission Office of Graduate School, BUCM, must receive applicants' paper documents, before May 15 for the first round, and before October 15 for the second, for the sake of China Government Scholarship.

Address: The Admission Office of Master's Degree and PhD Program, Graduate School , Beijing University of Chinese Medicine, No. 11, Bei San Huan East Road (Postcode: 100029, Tel: +86 10 64286502,). The office will not accept the overdue applications.
